Boston, 10.—The Journal will publish to-morrow a series of interviews with leading sugar refineries, of this city, in which dissatisfaction as manifested with leading sugar refineries, of this city, in which dissatisfaction is manifested with the report of the tariff commission, so far as sugar is concerned. They say the proposition of the planters' association is identical with the scale of duties proposed by the commission in its report. It is claimed by the commission that the change in the tariff rates on sugar will amount to 15 per cent. This the Boston refiners deny. On the contrary, they are of the unanimous opinion that the average duty on the grades of sugar now most used for refining, is higher by the schedule of the commission, than the average duty paid under the presentlaw, which is about 25 per cent. above the general war tariff rates. In order to make the raduction commensurate with that recommended for other dutiable merchandise, such as cotton, 50 per cent, should have been taken off, but Louisiana planters who produce but 8 per cent of the 1,000,000 tons consumed annually in the United States, demand this excessive duty which is in reality 3 cents on every pound of the granulated article Glucosa manufacturers and California refiners, together with southern planters, whose president was a member of the tarriff commission, unite their efforts to keep up this odious extortion. Refiners, as well as consumers, demand a radical reduction of the duty on raw augar.

# TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause —liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and un-happiness into so many families.

> Itisafact! Brown's Iron Itisafact! Brown's Iron Bitters, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old druggists and in every particular reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially bitters, are noth-ing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's IRON BITTERS. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00 tle.
